You will receive your 2021 Golden Valley Electric election packet in the mail very soon. The packet includes an election brochure, a mail-in ballot and your Electronic Voting Number.

There are two ways to cast your ballot—electronically or by mail.

If you would like to vote electronically, you will need your Electronic Voting Number (found either in the middle right of your May or June GVEA billing statement or on the return envelope in the election packet) and the password noted below.
